NatSec prosecutors prevented the release of the Flynn/Kislyak transcripts, not 'Barr the Hutt' 🙄

Louise Mensch 
@LouiseMensch

It wasn't Barr. It was national security prosecutors who used to be on Mueller's team.

Tom Joseph @TomJChicago

Barr refused to give Judge Sullivan transcripts of Flynn's calls w/ Kislyak. Barr just gave away:

- 1 The tapes destroy Trump
- 2 He's driving a coverup

My guess is Trump ID'ed US assets in Russia, resulting in 12 dead Russians. Expect major fallout from [thistwitter.com/TomJChicago/st...](https://twitter.com/TomJChicago/status/1134444444)

Hey, Rob, uhm, this is John again. Uh, maybe, I-I-I'm-I'm sympathetic; I understand your situation, but let me see if I can't...state it in...starker terms. If you have...and it wouldn't surprise me if you've gone on to make a deal with, and, uh, work with the government, uh... I understand that you can't join the joint defense; so that's one thing. If, on the other hand, we have, there's information that...implicates the President, then we've got a national security issue, or maybe a national security issue, I don't know...some issue, we got to-we got to deal with, not only for the President, but for the country. So...uh...you know, then-then, you know, we need some kind of heads up. Um, just for the sake of...protecting all our interests, if we can, without you having to give up any...confidential information. So, uhm, and if it's the former, then, you know, remember what we've always said about the President and his feelings toward Flynn and, that still remains, but—Well, in any event, uhm, let me know, and, uh, I appreciate your listening and taking the time. Thanks, Pal.
